

"INTRODUCTION TO WHERE HAVE ALL THE HORSEMEN GONE?™"

Thursday, June 24, 2010 4 p.m. – 7 p.m. Houston Mounted Patrol Facility Houston, TX

Come and learn:

- *The philosophies of the health model versus the dis-ease model*
- *Basic principles of horse and human health*
- *Some simple yet powerful techniques you can use with your horse to improve his health and performance*

Taught by Dr. Regan Golob

Dr. Regan Golob of Star, ID is a lifelong horseman who grew up on a cattle ranch in the Yakima Valley. His horse experience includes working ranch horses, breeding and training race horses (he and his father and a partner owned several major stakes winners and a Kentucky Derby starter), and riding to the hounds. Additionally, Regan worked with the US Equestrian team at the Endurance Championships in UAE Dubai. A retired chiropractor with an additional degree in biology, he has adapted his training in anatomy/physiology and energy balancing to the equine world, and has over 30 years of experience and enthusiastic students for his performance-enhancement training exercises all over the US and Canada. Dr. Golob's techniques of Bio-Energy Analysis Therapy analyze reflex points (muscle and nerve reflex points) that reveal energy blocks creating musculo-skeletal and nervous system problems.

Proceeds to benefit the horses of the Houston Mounted Patrol

Hosted By...

Houston Mounted Patrol
5005 Little York
Houston, TX 77093
